The English so called blue-bloods, bank on their (horse talk) pedigrees and turn up their noses at American plebians, but when Lord Stratford or any other old lord, he is only 70 years of age, wants to add millions to his fortune he or they come across the pond for a 30-year old bride. In plain American, what is the difference between the young plebian American who goes out for a frolic and the English Lord who makes it legal adultery. Money pays for many things, but it cannot make impure matter pure.
